Profile

Full-Stack Software Developer

Passionate about automation and creating efficient technological solutions. Advanced ITLA student with solid hands-on experience building web applications (React, Node.js), backend development (C#, Python), and AI integration (bots and agents). Eager to leverage my programming skills and background in operational problem-solving to build high-impact software.

Education

Desarrollador Software,

Instituto Tec. De Las Américas (ITLA)

2020 – present | Santo Domingo, R.D.

Lic. Psicología, Universidad Católica S.D.
